**Dr. Jane Ammons**

President of Institute of Industrial Engineering

Atlanta – Georgia

**USA**

Dear Dr. Ammons,

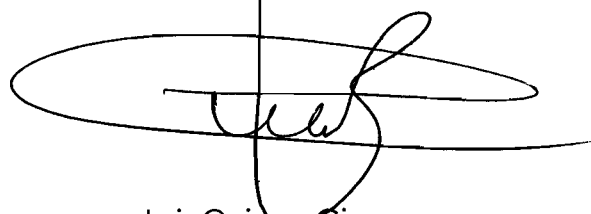

In the name of the Conference Board of the Brazilian Industrial Engineering Association (ABEPRO) in joint venture with the Association for the Development of Organizational Engineering (ADINGOR) from Spain, we would like to manifest our interest of hosting the IIE Annual Conference in a Brazilian location in the near future. ABEPRO organizes the Brazilian Annual Conference yearly since 1990; the last edition of this conference was attended by 2500 participants. ABEPRO and ADINGOR representatives will be attending to the IIE Cancun meeting in 2010, when they will present an overview of the IE Profession in Brazil and Spain, and contact you personally to further discuss the possibilities of putting together a Brazilian edition of the IIE Annual Meeting.

We are looking forward to establish joint ventures with IIE in the near future.

Sincerely,

Osvaldo Quelhas  
President of ABEPRO

Luis Onieva Gimenez  
President of ADINGOR
